Acceptance of Streets in the Amazon Tract.

Supervisor Welch presented the matter of the acceptance of the streets in the Amazon Tract. He said that for some time past the people in the Amazon Tract have been attempting to get the City to accept their streets. They were not constructed under City supervision

and while they are still in fairly good condition, they were not constructed according to requirements necessary in order that they can be accepted properly.

A large number of residents of the district appeared and urged that about thirty blocks of streets be accepted.

The spokesman for the property owners stated that the City has been keeping the streets repaired and filling in any holes as they appear from time to time and are all in good shape excepting Geneva avenue.

Clyde Healy, Assistant City Engineer, read a report which he would present to the Board of Works on Wednesday, in which he recommended that the City keep the streets clean the same as accepted streets, but not accept them.

The matter was referred to the streets and Finance Committees and will be heard at 3 p. m. Friday, October 16th.

There are some other portions of the City in a similar situation and these will also be considered at the same time.

UNFINISHED BUSINESS.

Whereas, in accordance with the direction contained in Resolution No. 21989 (New Series) of this Board, approved February 1, 1924, the City Attorney did, on the 11th day of February, 1924, file with the Railroad Commission of the State of California a petition on behalf of the City and County of San Francisco asking that said Railroad Commission fix and determine the just compensation to be paid by the City and County of San Francisco for

City Attorney to Institute Proceedings Before Railroad Commission for Reduction of Water Rates.

The following resolution heretofore presented by Supervisor Katz and referred to the Public Utilities Committee was returned by said committee with favorable recommendation:

Resolution No. ——— (New Series), as follows:

Whereas, the water rates paid by the consumers of the City and County of San Francisco to the Spring Valley Water Company are the highest water rates paid in any large city of the United States, to the detriment of San Francisco;

Whereas, an order made by the Railroad Commission of the State of California, effective September 1, 1921, and a subsequent order, effective April, 1922, the Spring Valley Water Company was granted an increase in its water rates of twenty per cent, based upon certain conditions, and in said order the City and County of San Francisco was given the option of purchasing the Spring Valley Water Company at the stipulated price of \$37,000,000;

Whereas, among the conditions contained in said order the company was required to expend the sum, not exceeding \$1,500,000, to increase the yield of the Calaveras reservoir not less than 24,000,000 gallons of water daily, and that commencing with the year 1922 the company is required to make an annual contribution to the amortization fund of such sum as will upon the expiration of the term of twelve years, with interest at five per cent compounded annually, yield the sum equivalent to the capital expenditures required of \$1,500,000. It further provided that if the revenues of any particular year shall exceed the requirements of the Spring Valley Water Company by more than the amount of such annual contribution, the amount of such excess shall be apportioned equally between the amortization fund and the surplus of the Spring Valley Water Company;

Whereas, the revenues of the Spring Valley Water Company in the past three years have so far exceeded the stipulated requirements that the amortization fund, designed to aggregate \$1,500,000 in twelve years, has in three years reached the total of \$1,002,026.45, and over the period of twelve years will, if continued, reach approximately a sum of \$5,000,000;

Whereas, all of said moneys are being collected through excessive water rates, and if the City of San Francisco does not purchase or acquire the Spring Valley Water Company within the twelve-year period, all of said amortization fund will become the property of the Spring Valley Water Company;

Whereas, it is therefore apparent that the water rates should be reduced so that this amortization fund over the period of twelve years shall not exceed the sum of \$1,500,000; be it, therefore,

Resolved, That this Board of Supervisors does hereby request and direct the City Attorney to institute such proceedings before the State Railroad Commission as are necessary to secure a reduction of the water rates prevailing in San Francisco.

Action Deferred.

The foregoing resolution was, on motion, *laid over one week* and made a Special Order of Business for Monday, October 19, 1925, at 3 p. m. City Attorney to be notified to attend.

Board of Public Works to Provide Plans, Etc., for Erection of a Diversion Dam and Estimate of Cost of Same for Protection of Moccasin Power Plant.

The following resolution heretofore presented by Supervisor McSheehy and referred to the Public Utilities Committee was returned by said committee without recommendation:

Resolution No. ——— (New Series), as follows:

Whereas, east of San Francisco, a distance of about 135 miles, is the Moccasin Power Plant, with a capacity of 100,000 horsepower and contains therein 4 generators and 8 water-wheels. This entire plant, including building and equipment, has cost the City about \$1,000,000. About two miles above this powerhouse is situated the Priest Dam and reservoir which is connected to 4 penstocks. These penstocks are about 1 mile long, 5 feet in diameter and deliver 400 million gallons of water daily to the powerhouse. They have about 300 pounds pressure to the inch and a vertical drop of 1315 feet.

Whereas, on June 29, 1925, tests were made of the entire Hetch Hetchy plant and for some reason unknown three breaks occurred in the penstock, causing a flow of water to sweep into the powerhouse, flooding the same and causing a damage of about \$50,000, which took about 30 days to repair;

Whereas, on August 22, 1925, an inspection was made by this Board of the entire Hetch Hetchy project and during that inspection the penstocks were examined and the three breaks were shown. My attention was called to the fact that if another break should take place under a full load under which the power plant is now operating the pressure of water would be so great that it would sweep the power plant and all the equipment contained therein into Tuloumne River and

that a diversion dam should be erected as soon as possible at the foot of the penstocks and connect to the Tuolumne River so as to protect the power plant in case of another break in the penstocks;

Resolved, That the Board of Public Works, through its engineering department, be instructed to prepare the necessary plans and specifications for the erection of a diversion dam and report to this Board as soon as possible the cost of same.

Referred to the Public Utilities Committee.

First: Out of the first moneys deposited and to be deposited in said fund there is hereby appropriated the sum of \$166,666 for the payment during the fiscal year ending June 30, 1926, of the operation expenses of the power houses and transmission lines on the Hetch Hetchy Project, including administrative and miscellaneous expense incidental to the operation of said power houses and transmission lines, workmen's compensation insurance and pension contributions required under Ordinance No. 5561 (New Series) and ordinances amendatory thereof, and also for the repairs and reconstruction of any portion of the works on said project necessary or incidental to the operation and maintenance of said power houses and transmission lines.

Second: There is appropriated out of the moneys deposited and to be deposited in said fund as soon as the same shall be in excess of the said amount required for the

purposes of subdivision first of this section, the further sum of \$83,333 as a depreciation reserve fund for the fiscal year ending June 30, 1926, for the purpose of meeting the costs of replacements of any portion of the works utilized in the production and transmission of hydro-electric power which shall become worn out or destroyed as a result of operation, the action of the elements, or any casualty, and also for the purpose of creating a fund for the future replacement of such parts of said works as may, for any one or more of the last mentioned reasons, require replacement in the future.

Third: The Board of Supervisors hereby finds that of the proceeds of the total Water Bond Issue of \$45,000,000 voted in 1910, \$21,000,000, or approximately one-half of the proceeds of said issue, have been used for the construction of a portion of the Hetch Hetchy Project which is used for the generation and transmission of hydro-electric power, and that for said reason it is proper that interest on and redemption of one-half of said bond issue should be provided for out of power revenues. It is therefore hereby ordered that out of the rest, residue and remainder of the moneys accruing to said Hetch Hetchy Power Operative Fund during the fiscal year ending June 30, 1926, after deducting from the same the appropriations provided for in subdivisions first and second of this section, there shall be and there is hereby appropriated and transferred to the "Water Bond Interest and Redemption Fund" a sufficient amount to provide for the payment of interest on and redemption of one-half of the Water Bonds of said Issue of 1910 which were or may be outstanding during said fiscal year 1925-1926, for the purpose of paying interest on and redemption of the portion of said bonds issued for the acquisition and construction of said utility, as hereinbefore segregated.

Section 3. For each fiscal year commencing with July 1, 1926, and July first of each year thereafter, there is hereby similarly appropriated from said Operative Fund: First, the sum of \$200,000 for the purposes specified in subdivision first of Section 2 hereof; second, the sum of \$175,000 for the purposes specified in the second subdivision of Section 2 hereof; and third, after deducting said sums, sufficient of the rest and remainder of said moneys accruing to said fund during each of said fiscal years

to pay one-half of the interest on and cost of redeeming so many of said bonds as shall be outstanding during said fiscal year; provided, further, that if and whenever the moneys deposited in said fund shall become more than sufficient to meet the operation, maintenance, depreciation, interest and redemption charges above specified, in either the fiscal year 1925-1926 or in any subsequent fiscal year, then and in such event the Board of Supervisors may make further appropriations from said fund for the additional purposes specified in Section 16 of Article XII of the Charter.

Section 4. All expenditures for operation, maintenance and depreciation charges as above defined shall be paid out of the respective appropriations therefor by the Treasurer, upon demands duly approved by the Board of Public Works and the Auditor.

Section 5. At the end of the fiscal year beginning July 1, 1925, and at the end of each fiscal year thereafter the balance remaining in said Hetch Hetchy Power Operative Fund and not appropriated for specific additions or betterments, shall be held for and applied exclusively towards the acquisition or construction of a transmission line for carrying electric energy generated at the Moccasin plant from Newark to the City and County of San Francisco.

Section 6. This ordinance shall take effect immediately.

In Memoriam.

Supervisor Colman called atten-

tion to the passing of Max J. Brandenstein. Mr. Brandenstein, a well-known and beloved citizen of San Francisco. He was born in San Francisco, said Supervisor Colman, and always identified himself in any movement looking to its industrial and civic progress. Prominent in many fraternal and philanthropic activities, his loss will be mourned by many to whom he had endeared himself.

Supervisor McLeran called attention to the passing of Walter Brunt at the age of sixty-two years. Walter N. Brunt, he said, was prominent in numerous fraternal and civic organizations and had a host of friends. In the death of Walter N. Brunt, he said, the City loses a distinguished citizen. He moved that when we adjourn we do so out of respect to his memory.

City Attorney to Institute Proceedings Before Railroad Commission for Reduction of Water Rates.

The following resolution, heretofore presented by Supervisor Katz and referred to the Public Utilities Committee, was returned by said committee with favorable recommendation:

Resolution No. 24643 (New Series), as follows:

Whereas, the water rates paid by the consumers of the City and County of San Francisco to the Spring Valley Water Company are the highest water rates paid in any large city of the United States, to the detriment of San Francisco;

Whereas, an order made by the Railroad Commission of the State of California, effective September 1, 1921, and a subsequent order, effective April, 1922, the Spring Valley Water Company was granted an increase in its water rates of twenty per cent, based upon certain conditions, and in said order the City and County of San Francisco was given the option of purchasing the Spring Valley Water Company at the stipulated price of \$37,000,000;

Whereas, among the conditions contained in said order the company was required to expend the sum, not exceeding \$1,500,000, to increase the yield of the Calaveras reservoir not less than 24,000,000 gallons of water daily, and that commencing with the year 1922 the

company is required to make an annual contribution to the amortization fund of such sum as will upon the expiration of the term of twelve years, with interest at five per cent compounded annually, yield the sum equivalent to the capital expenditures required of \$1,500,000. It further provided that if the revenues of any particular year shall exceed the requirements of the Spring Valley Water Company by more than the amount of such annual contribution, the amount of such excess shall be apportioned equally between the amortization fund and the surplus of the Spring Valley Water Company;

Whereas, the revenues of the Spring Valley Water Company in the past three years have so far exceeded the stipulated requirements that the amortization fund, designed to aggregate \$1,500,000 in twelve years, has in three years reached the total of \$1,002,026.45, and over the period of twelve years will, if continued, reach approximately a sum of \$5,000,000;

Whereas, all of said moneys are being collected through excessive water rates, and if the City of San Francisco does not purchase or acquire the Spring Valley Water Company within the twelve-year period, all of said amortization fund will become the property of the Spring Valley Water Company;

Whereas, it is therefore apparent that the water rates should be reduced so that this amortization fund over the period of twelve years shall not exceed the sum of \$1,500,000; be it, therefore,

Resolved, That this Board of Supervisors does hereby request and direct the City Attorney to institute such proceedings before the State Railroad Commission as are necessary to secure a reduction of the water rates prevailing in San Francisco.

Motions.

Supervisor Rossi, seconded by *Supervisor Colman*, renewed his motion of last Friday that the report be received and made a part of the record.

Supervisor Welch, seconded by *Supervisor Badaracco*, moved as a substitute for the report the adoption of the following resolution:

Whereas, a complete budget of expenditures and a resultant tax rate are annually adopted by this Board and become laws and public records of the City and County of San Francisco;

Resolved, That the Clerk of this Board be and he is hereby directed to place at the disposal of the people and the press of this City copies of the budget and tax rate of

the fiscal year 1924-1925 and the fiscal year 1925-1926.

JNO. B. BADARACCO.
WARREN SHANNON.
JAS. B. MCSHEEHY.
CORNELIUS J. DEASY.
PHIL KATZ.

Point of Order.

Supervisor Rossi raised the point of order that the resolution was out of order on the ground that it was an entirely different proposition.

Chair (*Supervisor Wetmore*) ruled the point of order well taken and declared the resolution out of order.

Supervisor Shannon raised the question that the demands in the

Roncovieri resolution had not been complied with in detail and moved as an amendment that the Clerk be directed to complete the statement and when so completed to submit it to this Board.

Seconded by Supervisor Badaracco.

(Discussion).

Amendment Defeated.

Whereupon, the roll was called and the amendment *defeated* by the following vote:

Ayes—Supervisors Badaracco, Deasy, Katz, McSheehy, Shannon, Welch—6.

Noes—Supervisors Bath, Colman, Harrelson, Hayden, McGregor, McLeran, Robb, Roncovieri, Rossi, Schmitz, Wetmore—11.

Absent—Supervisor Morgan—1.

Supervisor Rossi's Motion Carried.

Thereupon, Supervisor Rossi's motion was put and *carried* by the following vote:

Ayes—Supervisors Bath, Colman, Harrelson, Hayden, McGregor, McLeran, Robb, Roncovieri, Rossi, Schmitz, Wetmore—11.

Noes—Supervisors Badaracco, Deasy, Katz, McSheehy, Shannon, Welch—6.

Motion.

Supervisor Welch: I move that

when this document that has just been voted on is made a matter of record that the "ayes" and "noes" of this Board be made a part of the record also.

The Clerk: That will be inserted.

Supervisor Schmitz moved to include in that, also, the vote on the tax rate, so that the people may know who voted for the tax rate and who did not. There is only one man on this Board who voted against the tax rate, and that was Supervisor McSheehy. Every other man voted for it.

Supervisor Badaracco: I would like to have my statement included in that.

The Chairman: If there is no objection, such will be the order.

Supervisor Welch, seconded by Supervisor Badaracco: If it is accepted that the vote on the tax rate be included, I also move that the statement or statements filed by certain members of the Board on the tax rate be included with the vote on the tax rate.

No objection. *So ordered.*

Motion.

Supervisor McLeran moved that resolution presented by Supervisor Welch earlier in the meeting be adopted.

There being no objection, it was *so ordered.*

The aforesaid matters follow:

EXPLANATIONS OF VOTE.

Statement of Supervisor Badaracco.

September 21, 1925.

I want it distinctly understood that I cast my vote for this unprecedented tax rate under protest and

under the compulsion of a legal situation over which I have no control—the situation created by the votes of the majority members of the Board of Supervisors.

Realizing that an outrage has

been committed upon the tax payers of San Francisco by the fixing of this enormous levy, I am nevertheless confronted by the knowledge that if I and my colleagues who voted to reduce this year's record-breaking budget should now refuse to sanction the tax rate, which is based upon that budget, we would throw the City Government into a financial chaos and bring untold injury upon the community.

I realize that voting *no* would jeopardize the appropriations for Public Schools, Hospital Work, Widows' Pension, Police, Fire Department and Street appropriations.

The minority members of the Board of Supervisors have fought hard and long against the pyramiding of expenditures which has created this tax rate, and we are repeatedly voted down and are now powerless to prevent the will of the majority members of the Board of Supervisors.

J. B. BADARACCO.

Supervisor Deasy reserved the right to file a statement in explanation of his vote.

Statement of Supervisor McSheehy.
September 12, 1925.

As a member of the Board of Supervisors of the City and County of San Francisco I wish to qualify my vote of *no* and have same recorded and inserted in the records for the following reasons, to-wit:

I have consistently protested against the ever-increasing tax rate every year for the past eight years. When I became a member of this Board in 1918 we had a tax rate of \$2.26 and a Budget of sixteen million dollars. That tax rate and Budget have been increased every year, and we find ourselves in this fiscal year of 1925-1926 with a tax rate of \$4.13 and a budget of thirty-five million dollars. This increase is 20 per cent over last year, and does not include \$450,000 of unbudgeted money that the Finance Committee have not credited, as called for in Article 3, Section 12 of the Charter, and which they can spend just as they see fit.

The people of San Francisco by their vote last November increased the Budget a little less than one and one-half million dollars, and a majority membership have increased it six and one-half million dollars, making a total increase of eight million dollars.

There is not another large city in the United States that can show such a horizontal increase in the expenditures and maintenance of their city that we are showing to-

day. Almost every city in and around this bay region, even our sister city to the south, have reduced their tax rate.

We have doubled our Budget and almost doubled our tax rate in eight years.

On May 21, 1925, a Budget of 1088 items was passed, calling for an expenditure of \$35,060,509, an increase of \$7,875,173 over last year. On this same day I submitted an amendment to the Budget, calling for a reduction of nineteen items, amounting to \$2,007,658, a cut of 31 cents in the tax rate. This amount to be reflected in the itemization as submitted by the Finance Committee, to-wit:

General Fund cut\$0.185
Special Tax School Buildings.. 0.125

These items, together with the 7 cents that the Finance Committee underestimated, the tax roll and revenues from other sources, will total a cut of 38 cents in the tax rate, making a tax rate of \$3.75. These cuts can be made without impairing the efficiency of this City government in any manner or form, and will mean a reduction of \$19 in a \$5,000 assessment.

JAS. B. MCSHEEHY,
Supervisor.

Statement of Supervisor Shannon.

When this Board of Supervisors was considering the Budget for the fiscal year 1925-1926 I endeavored by argument to have items that I deemed unnecessary or premature eliminated, but without success.

As the representative of fifty-three thousand people that elected me, and the taxpayers generally, I feel that an advance of sixty-six cents in the tax rate in one year is too much of an advance and that it is liable to work a hardship in many quarters. It is bad for the city generally, as prospective investors and locators from the outside would give serious consideration to our high tax rate before making an investment in our midst.

For these reasons and for the further reason that I realize that voting *no* would jeopardize the appropriations for public schools, hospital work, widows' pensions, and like humanitarian work, and Police and Fire Department appropriations, I am going to vote *aye* on the \$4.13 tax rate, but I want it distinctly understood that I am doing so under protest.

WARREN SHANNON.

Statement of Supervisor Richard J. Welch.

I am voting for this unjustified tax rate of \$4.13 under protest. This

enormous rate is the result of a budget referred to as the "budget of accumulated neglects" adopted May 29, 1925, by a bare majority of this Board. Under our Charter ten Supervisors out of a possible eighteen can pass a budget carrying appropriations in excess of the dollar limit, whereas it requires fifteen Supervisors to pass a tax rate exceeding the dollar limit. The action of the majority in passing a budget carrying with it vast sums over and above that which is necessary to pay the cost of our City government for the year 1925-26 was vigorously protested by a minority of six members in an earnest and sincere effort to keep the tax rate to a justifiable figure. Tax rates should be based on a budget of items carefully considered and with due consideration for the taxpayers who have to foot the bills.

One item alone of \$450,000, equal to seven cents in the tax rate, was not a budget item. This enormous sum, which will be placed at the disposal of the Finance Committee, was made possible by underestimating the City's revenues from outside sources. Item upon item running into vast sums have been crowded into this tax rate, with the

result that the City is confronted with a sixty-six cent tax increase. At the same time there has been an increased assessed valuation of \$44,000,000 which does not include new construction. While it is possible for the members who fought for a lower tax rate to defeat this unnecessary increase, yet in doing so the worthy would suffer with the unworthy. The legitimate and necessary cost of our City government, such as Public School, Health, Police and Fire Departments, widows, orphans, hospitals, street lighting, repairs, etc., are all run by necessity far in excess of the dollar limit.

To defeat this unreasonable and unjust tax rate would mean to defeat also these necessities, which would cause suffering, if not disaster. No naval commander would train his guns on a hospital ship even if assured that in addition to her mission of mercy she was carrying contraband of war. No more can I, as a Supervisor, shoot through our schools, hospitals, and other departments of the City government.

RICHARD J. WELCH.

Resolution of Sympathy—Pueblo Indians.

The following was presented by Supervisor Hayden:

San Francisco, Cal.,
October 26, 1925.

Honorable Board of Supervisors,
City and County of San Francisco,
City Hall, San Francisco.

My Fellow Colleagues:

I received this morning a visit from a delegation and an appeal for sympathetic support which I feel it my duty to transmit to you, with the hope that you will cooperate.

Twelve Pueblo Indian chiefs called on me, clad in their tribal costumes and bearing with them the silver-headed canes which were presented to them by President Abraham Lincoln in token of the good faith that the Government of the United States should preserve in all future dealings with them.

At approximately the same time their tribes received from President Lincoln a perpetual grant of lands in New Mexico on which they and their descendants might live forever. Since that time the white man has again and again invaded their territory and settlers with no other rights than squatters' titles have appropriated their lands.

Recently Congress has taken cognizance of these invaded rights and has appointed a board, known as the Pueblo Lands Board, which is to investigate these invasions of the Indian rights and arrange for the restoration to them of the lands rightfully belonging to them, or adequate compensation by the nation to them for any lands which cannot be so restored.

In order to secure the funds with which to present their claims to this Board these twelve representatives of the Pueblo Indian tribes are traveling throughout the country soliciting the support of the American people and giving little entertainments, from the proceeds of which an adequate presentation can be financed.

I therefore take the liberty of asking you, as the official governing council of San Francisco, to adopt a resolution which will officially show the sympathy of San Francisco with the aims of these Indian peoples and an official request for remedy of their wrongs. I may say that the claims of these Indians are supported by the Indian Affairs Section of the Commonwealth Club, which has investigated them very thoroughly, and by the Indian Defense Association of California.

Trusting that you will see your way clear to grant this cooperation, I am,

Yours very respectfully,

JAMES ROLPH, JR.,
Mayor.

Whereupon, the following resolution was presented and *adopted* by the following vote:

Resolution No. 24705 (New Series), as follows:

Whereas, the Mayor has called to the attention of this Board the appeal to the City of San Francisco for sympathetic support made by the delegation of the Pueblo Indians of New Mexico, first, for aid in the presentation of their claims to the Federal Pueblo Lands Board for the return to them of lands granted them by the United States government in the time of President Lincoln, and for compensation for the loss of lands which cannot be returned; and, second, for a more liberal attitude on the part of the Indian Bureau toward them in the exercise of their tribal religious ceremonies and customs; and

Whereas, the claims of these Indian tribes have excited the sympathy of informed people throughout the nation and it seems proper that the City of San Francisco, as a community where justice and religious freedom have ever been upheld, should add its voice for the aid of these original citizens of America; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco does hereby endorse the claims of the Pueblo Indians for fair and liberal treatment at the hands of the Federal Pueblo Lands Board in the restoration of their ancient titles and for liberal compensation to them where such lands cannot be restored; be it

Further Resolved, That the Board of Supervisors heartily endorses the principle of giving to the Indian tribes of the United States the same right to freedom of religious belief and observation and to the training of their children in their tribal religion and customs as the Constitution guarantees to all American citizens. Be it

Further Resolved, That a copy of this resolution be transmitted to the President of the United States, to the President of the United States Senate and to the Speaker of the House of Representatives.

Ayes — Supervisors Badaracco, Bath, Colman, Harrelson, Hayden, Katz, McSheehy, Roncovieri, Shannon, Welch, Wetmore—11.

Absent—Supervisors Deasy, McGregor, McLeran, Morgan, Robb, Rossi, Schmitz—7.

New Quarters for District Attorney, Public Defender, Etc.

On motion of Supervisor Shannon, Isadore Golden, representing District Attorney, was granted the privilege of the floor and asked that the District Attorney's office and the office of the Public Defender be removed from the Hall of Justice to some other location. He said that they were overcrowded and called attention to the recommendation made by the last Grand Jury to that effect.

Chief D. T. O'Brien also stated that the Police Department is crowded for space and that anything which can be done to help the situation will be appreciated.

On motion of Supervisor Shannon, the Mayor was requested to appoint a committee of three members to look into the conditions at the Hall of Justice and report back to the Board.

Completion of Bay Crossing Division Pipe Line.

Supervisor Shannon asked Assistant City Engineer Eckart if the work on the Bay Crossing Division pipe line would be completed by December, and was advised that it would be probably be about January 1st or shortly after. Whereupon, Supervisor Shannon declared that the City was losing the interest on about \$5,000,000 or \$250,000 a month by reason of the delay in this project. He asked that the Public Utilities Committee go down and investigate this Thursday, No-

vember 19, 1925, leaving the City Hall at 9 a. m. It was so ordered and the chairman was directed to obtain a copy of the contract with Spring Valley Water Company and any information relative to the granting of delays.

Christmas Concert.

At the suggestion of Supervisor McGregor, the Clerk was requested to communicate with the Loring Club and ascertain if they would not be willing to participate in a program of Christmas carols to be given in the rotunda of the City Hall at some time near Christmas.

Embarcadero Bus Line.

Supervisor McSherry asked for a report from the City Engineer's office on the proposed Embarcadero Bus Line.

Assistant City Engineer Nelson Eckert informed the Board that the plans and specifications are almost completed and he thinks they will be ready to call for bids by next Monday.

However, he says that the installation of this service is contingent upon a formal offer from the State Board of Harbor Commissioners of the subsidy of \$18,000 per annum verbally offered by the Board, and that this has not yet been received.

Supervisor Shannon said he would get in touch with the President of the Board and take the matter up with him.

Relative to Roping off Portion of Ashbury Street at Noon Hour.

The following was presented and read by the Clerk:

Opinion of City Attorney.

November 16, 1925.

Subject: Resolution by Board of Supervisors permitting Ashbury street to be permanently roped off illegal.

Gentlemen:

I am in receipt of your request for an opinion as to the legality of Resolution No. 24457 (New Series), adopted September 2, 1925, which reads as follows:

"Whereas, the Rev. Mother of St. Agnes Academy and a number of residents and property owners, in communication dated August 25, 1925, requested permission to rope off the south half of Ashbury street between Frederick street and Waller street from Monday until Friday of each week and between the hours of twelve o'clock m. and one o'clock p. m., in order that the little children attending St. Agnes Academy may be more adequately protected from the dangers of vehicular travel

and may utilize that portion of said street between said hours as a playground; therefore, be it

"Resolved, That permission be and is hereby granted the Rev. Mother of St. Agnes Academy to rope off the south half of Ashbury street between Frederick street and Waller street from Monday until Friday of each week and between the hours of 12 m. and 1 o'clock p. m., in order that the little children attending St. Agnes Academy may be more adequately protected from the dangers of vehicular travel and may utilize that portion of said street between said hours as a playground."

Section 9, Article VI, Chapter I of the Charter provides:

"The Board of Public Works shall have charge, superintendence and control, under such ordinances as may from time to time be adopted by the Supervisors:

Of all public ways, streets, avenues, lanes, alleys, places, courts, roads, etc., ———. The use of any street or any portion thereof for the deposit of building material in front of a building during its construction or repair, or for any purpose other than such as ordinarily and properly belongs to the public from the dedication thereof to public use."

This is the only provision of the Charter which seems to authorize the obstruction of the free use of a public street. This clearly gives the Board of Public Works control of the streets for certain temporary purposes under ordinances of the Board of Supervisors. It does not purport to give the Board of Supervisors the power to pass any ordinances or resolutions they may see fit which would permanently interfere with the free use of the street. Therefore, the power of the Board of Public Works in any event must depend upon the legality of the ordinance or resolution and the Board of Supervisors must act only in accordance with the general law. It has been uniformly held that the paramount use of a street is for travel and the language of the Charter "or for any purpose other than such as ordinarily and properly belongs to the Public for the dedication thereof for public use" must be construed as permitting such a temporary obstruction to the street to the limited extent pointed out in that section. It does not mean that the Supervisors or the Board of Public Works can take away from the public the right to travel a public street or suffer any permanent obstruction thereof.

It is said in 28 Cyc. of Law, p. 870:

"Except where the use is temporary or the power has been delegated by the legislature, a municipality has no power to authorize the use of streets for a private purpose, that is, one from which neither the municipality nor its citizens derive any consideration or benefit. For instance, it is generally held that a municipality cannot authorize the construction of a purely private railroad upon the public streets. So a municipality has no power to authorize a private person to bridge over a portion of a street, leaving merely a tunnel for the passage of vehicles and pedestrians, nor to construct and maintain a bridge or other structure over a street so as to connect buildings on both sides. And a municipality has no power to grant to an abutting owner the right to so construct his building as to encroach on the street nor to use the streets for stands or booths for business purposes, nor to use a street for the erection of private scales, nor has the municipality the power to grant the right to use a part of a street for hack stands, or to authorize awnings obstructing the public use of the way."

Also, it is said in McQuillin on Municipal Corporations, 3d Ed., Section 1333:

"The streets and public ways of a municipal corporation are held by it in trust for the public, to be used for the ordinary purposes of travel in the usual manner by day and night and such other uses as customarily pertain thereto, which in recent years are numerous and various.

"By virtue of delegated power, a municipality may (1) use a street for sewers, water pipes, etc., and may obstruct it for a reasonable time while the street is being repaired or improved, or may (2) permit railroad tracks, street car tracks, electric light poles and wires, gas pipes, water pipes, etc., of a public utility corporation in the street, or may generally (3) permit certain minor private uses of the street, such as allowing bay windows, awnings, areaways, coal holes, etc., which slightly if at all interfere with travel, where such a permit is not forbidden by statute, charter or ordinance provision.

"Excluding the use of a street by the municipality itself for public purposes such as sewers, drains, water pipes, etc., and (2) the use by franchise holding corporations,

such as street railroads and water, gas and electric light companies, the general rule is that neither the municipality, the abutting owners, nor third persons can permanently encroach on a street for a private use, and that all such encroachments are nuisances, at least unless a permit has been duly granted and the municipality has power to permit the encroachment.

"In many cities the streets have been subjected to a great number of invasions for the benefit and use of private owners, but in recent years it has been more and more realized by the courts how dangerous such invasions have been and how if one person is permitted to use the streets, will be seriously interfered with. Unquestionably many permits to encroach on the street are granted by nearly every municipality of any considerable size which, if the question were litigated, would be held to be entirely beyond the power of the municipality.

"The authority of a municipal corporation to grant the right to encroach on the street depends upon the statutes of the state and the charter provisions applicable. A municipality cannot authorize a permanent encroachment, i. e., cannot confer power on abutters or others to occupy permanently a part of the street for a private use, unless such power has been expressly delegated by the legislature, and even then the property rights of abutters and near-by owners of adjoining property must not be infringed upon. If the municipality has no power to permit such use of the streets, it necessarily follows that, where it has not authorized the encroachment or obstruction, and could not authorize it, such a use of the street is unlawful and constitutes a nuisance."

Again, in 19 Cal. Juris., Sec. 447, the following language is used:

"As indicated by the code definition of a nuisance, a legalized obstruction is not a nuisance. While the owners of frontage, singly or combined, cannot confer upon one the right to the use of a street, the right to maintain what would otherwise be an obstruction may be authorized by the constitution, the legislature, or, where such power has been delegated to it, by the municipality. Municipal charters have in California universally conferred upon local governments power to legislate for the maintenance and care of their public streets, and it seems that their power is such that they may au-

thorize temporary obstructions or permanent structures for the purpose of affording approach to abutting property. It is generally the usage and custom to allow openings to be made in the sidewalks of cities, to obtain entrance to basements, such openings and the coverings thereof being subject to proper municipal regulation. But where such power has not been delegated, a city may not, as a general rule, authorize the construction of buildings in its streets or authorize the use of them for private purposes from which the municipality or its citizens will derive no benefit. It may not, for example, permit the use of a part of a street for a lumber yard for a number of years, or authorize the maintenance at a fixed place in a public street of a "lunch wagon."

It is clear, therefore, from the above authorities that neither the Board of Public Works nor the Board of Supervisors have the power to grant any permanent obstruction to a street under the resolution quoted. While the use of the streets for playgrounds is temporary in the sense that it shall only exist for certain hours each day, the interruption of travel is permanent in the sense that during those hours of those days vehicles are refused the use of the street and absolutely refused permission to pass.

Therefore, I am of the opinion that the resolution in question is void as permitting an unlawful permanent obstruction of Ashbury street between Frederick and Waller streets from Monday until Friday of each week between the hours of twelve m. and one o'clock p. m. Such resolution is beyond the power of the Board of Supervisors to adopt.

Respectfully,

(Signed) GEORGE LULL,

City Attorney.

The foregoing communication received, placed on file, ordered printed in the Journal and the Clerk directed to send a copy to the Board of Education. The subject matter was thereupon laid over one week and Chief of Police O'Brien requested to be present; also, City Attorney and representatives of St. Agnes' Academy.

PRESENTATION OF PROPOSALS.

Turkeys.

Proposals were received for furnishing turkeys between the hours of 2 and 3 p. m. and referred to the Supplies Committee.

Increase of Carmen's Pay.

Supervisor Shannon inquired of

the Clerk with reference to proposed wage increase of municipal carmen, why he had been requested to attend a meeting of Finance and Public Utilities Committees on Tuesday morning as the meeting would conflict with the reorganization meeting called of the hold-over members and the newly-elected members. He wanted to know how the question came about, inasmuch as it had been before the Public Utilities Committee at least twice and that after an opinion had been rendered by the City Attorney stating that question of increasing the pay of the carmen lies entirely within the jurisdiction of the Board of Public Works, the matter had each time been referred to the Board of Public Works.

Supervisor McLeran stated that a large delegation of the carmen appeared before the Finance Committee and asked for a raise in pay. That Supervisor McSheehy was present and favored the raise and a joint meeting of the Finance and Public Utilities Committees was called for the following day, at which meeting both Supervisors McSheehy and Katz were present and they concurred in a recommendation to the Board that the raise be granted.

Supervisor McSheehy stated that he thought the ordinance on the calendar for an adjustment of the Municipal Railway Funds (No. 82 on the calendar) should be adopted first before the question of the raise should be taken up. That as it is, the Municipal Fund shows a deficit of \$438,800.

He said: "I do not say now that they will receive a raise of a dollar a day, but I do think they will receive a raise. We cannot make the raise unless we rescind some of our previous action, particularly with regard to the Sunset extension."

Supervisor McLeran said: "The ordinance is to definitely tie up a certain amount, and if it is passed it will be impossible to give the carmen a raise because the money isn't there."

On motion of Supervisor Shannon further consideration of the matter was deferred two weeks until such time as the Board shall have received an expression from the Board of Public Works in regard to the matter.

UNFINISHED BUSINESS.

Blake, secretary, Marina District Improvement Association, stating that the association is very desirous of the City purchasing the land east of Fillmore and north of Bay street to carry out the project of an exhibit palace and a plaza, which it feels would beautify the City and serve the very urgent necessary purpose in accommodating large shows and educational exhibitions which from time to time hold their affairs in this City.

Communication, from Council of Civic Clubs, reiterating its former stand of opposition to the proposed purchase of a site in the Marina lying east of Fillmore street for an exhibition building on the ground that the transaction is illegal and that there are other more important projects which should be taken care of first.

Communication, from the Western Construction and Equipment Distributors, urging the Board of Supervisors to complete the purchase of the property on the Marina, which they have been occupying by the All-Western Road Show, exhibiting machinery, trucks, etc., for manufacturers all over the United States.

Amendment to Tunnel Procedure Ordinance.

On motion of Supervisor Wetmore:

Bill No. 7357, Ordinance No. — (New Series), as follows:

Amending "The Tunnel Procedure Ordinance" of the City and County of San Francisco, being Ordinance No. 2186 (New Series), approved February 19, 1913, as amended, by adding a new section thereto to be numbered and known as Section 38a, providing that in certain cases the assessment levied

upon any subdivision as assessed, which subdivision has been resubdivided into smaller lots, may be segregated and apportioned among said smaller lots, and providing a method of procedure therefor.

Be it ordained by the People of the City and County of San Francisco, State of California, as follows:

Section 1. A new section is hereby added to "The Tunnel Procedure Ordinance" of said City and County, being Ordinance No. 2186 (New Series), approved February 19, 1923, providing that in certain cases the assessment levied upon any subdivision as assessed, which subdivision has been resubdivided into smaller lots, may be segregated and apportioned among said smaller lots, and providing a method of procedure therefor; said new section to be numbered and known as Section 38a, and to read as follows:

Section 38a. When any assessment has been levied under the provisions of this ordinance, and it shall appear that any subdivision shown on the map and list constituting such assessment has been resubdivided into smaller lots, between the time of the filing of the report of the Board of Public Works in the same proceeding and the time of the recording of said assessment in the office of the Tax Collector of said City and County, as in this ordinance provided, and it shall also appear that said resubdivision into smaller lots appears upon the maps and books of the office of the Assessor of said City and County current at the time of the recording of said assessment, then the assessment upon such subdivision may be segregated and apportioned between and upon the said several smaller lots as shown on said then current Assessor's maps and books, in the following manner:

The Tax Collector shall certify in writing that such facts exist in respect to one or more such subdivisions to the Board of Public Works. Thereupon it shall be the duty of the Board of Public Works to prepare a map of each of said subdivisions showing upon each the resubdivision thereof into smaller lots as the same appears upon the then current maps and books in said Assessor's office, indicating the dimensions of each smaller lot and giving to each of said smaller lots a separate designation by letter or letters in red ink.

In each instance the Board of Public Works shall thereupon segregate the total assessment as levied

upon the original subdivision and apportion the same among the said smaller lots in proportion to area, so that each smaller lot shall have apportioned to it such proportion of the whole original assessment as its area bears to the whole original subdivision.

Said Board shall also, in respect to each of said subdivisions, prepare a list to be called a segregation list referring to said smaller lots upon said respective maps by the number of the original assessment and the respective letters designating said smaller lots respectively, showing the names of the persons to whom the property represented thereby is assessed (as shown on the then current Assessor's maps and books) the area of each of said smaller lots and the amount of the segregated assessment apportioned to each of said smaller lots.

When said maps and list have been prepared and such segregations and apportionments made and shown thereon as aforesaid, said Board shall certify the same and deliver the same to said Tax Collector.

The Tax Collector shall thereupon record said maps in the same manner as the map of the original assessment district and shall enter in his record of the list (forming a part of the assessment) opposite each subdivision affected, a memorandum of the fact that such assessment has been segregated.

He shall then, and at the foot of the assessment recorded in his office, copy said segregation list into said book and record the same in the same manner as the original list.

Thereupon the amount so apportioned to each of said smaller lots shall constitute the assessment thereon in the same manner as though it had been originally so assessed, and all of the provisions of this ordinance, including among others those relative to the lien of said assessments, the payment of such assessments, the execution and delivery of agreements for the payment of assessments in installments, delinquency of assessments, and sale of property assessed therefor, and redemption from such sales shall apply to each of said smaller lots and to the assessment segregated and apportioned to each of said smaller lots respectively in the same manner as though each of said smaller lots had been originally so assessed.

This section shall not be deemed to repeal or supersede, or abridge,

the provisions of Section 38 hereof, but shall provide an additional or alternative method of relief in the cases to which it relates.

Section 2. This ordinance shall take effect immediately.

Whereas, on the 1st day of Octo-

ber, 1925, said resolution was duly approved by the Mayor of the City and County of San Francisco; and

Whereas, The Krieg Tanning Company and Attilio Beronio, owners of lands adjacent to or fronting on the aforesaid portion of said street so closed and abandoned, have offered to convey or cause to be conveyed to the City and County of San Francisco, property for the widening of San Bruno avenue in lieu of such portion of street so closed and abandoned; and

Whereas, it is deemed advisable by this Board of Supervisors that said parcel of land be opened as new portions of a street in lieu of those so closed and abandoned; and

cited and will be of much greater practical value both to the City and County of San Francisco and to the general public; now, therefore, be it

Resolved, That equity required that the portions of said street closed and abandoned as aforesaid should be conveyed by the City and County of San Francisco to said Krieg Tanning Company and Attilio Beronio; and be it

Amendment to Tunnel Procedure Ordinance.

Bill No. 7357, Ordinance No. 6872 (New Series), as follows:

Amending "The Tunnel Procedure Ordinance" of the City and County of San Francisco, being Ordinance No. 2186 (New Series), approved February 19, 1913, as amended, by adding a new section thereto to be numbered and known as Section 38a, providing that in certain cases the assessment levied upon any subdivision as assessed, which subdivision has been resubdivided into smaller lots, may be segregated and apportioned among said smaller lots, and providing a method of procedure therefor.

Be it ordained by the People of the City and County of San Francisco, State of California, as follows:

Section 1. A new section is hereby added to "The Tunnel Procedure Ordinance" of said City and County, being Ordinance No. 2186 (New Series), approved February 19, 1923, providing that in certain cases the assessment levied upon any subdivision as assessed, which subdivision has been resubdivided into smaller lots, may be segregated and apportioned among said smaller lots, and providing a method of pro-

cedure therefor; said new section to be numbered and known as Section 38a, and to read as follows:

Section 38a. When any assessment has been levied under the provisions of this ordinance, and it shall appear that any subdivision shown on the map and list constituting such assessment has been resubdivided into smaller lots, between the time of the filing of the report of the Board of Public Works in the same proceeding and the time of the recording of said assessment in the office of the Tax Collector of said City and County, as in this ordinance provided, and it shall also appear that said resubdivision into smaller lots appears upon the maps and books of the office of the Assessor of said City and County current at the time of the recording of said assessment, then the assessment upon such subdivision may be segregated and apportioned between and upon the said several smaller lots as shown on said then current Assessor's maps and books, in the following manner:

The Tax Collector shall certify in writing that such facts exist in respect to one or more such subdivisions to the Board of Public Works. Thereupon it shall be the duty of the Board of Public Works to prepare a map of each of said subdivisions showing upon each the resubdivision thereof into smaller lots as the same appears upon the then current maps and books in said Assessor's office, indicating the dimensions of each smaller lot and giving to each of said smaller lots a separate designation by letter or letters in red ink.

In each instance the Board of Public Works shall thereupon segregate the total assessment as levied upon the original subdivision and apportion the same among the said smaller lots in proportion to area, so that each smaller lot shall have apportioned to it such proportion of the whole original assessment as its area bears to the whole original subdivision.

Said Board shall also, in respect to each of said subdivisions, prepare a list to be called a segregation list referring to said smaller lots upon said respective maps by the number of the original assessment and the respective letters designating said smaller lots respectively, showing the names of the persons to whom the property represented thereby is assessed (as shown on the then current Assessor's maps and books) the area of each of said smaller lots and the

amount of the segregated assessment apportioned to each of said smaller lots.

When said maps and list have been prepared and such segregations and apportionments made and shown thereon as aforesaid, said Board shall certify the same and deliver the same to said Tax Collector.

The Tax Collector shall thereupon record said maps in the same manner as the map of the original assessment district and shall enter in his record of the list (forming a part of the assessment) opposite each subdivision affected, a memorandum of the fact that such assessment has been segregated.

He shall then, and at the foot of the assessment recorded in his office, copy said segregation list into said book and record the same in the same manner as the original list.

Thereupon the amount so apportioned to each of said smaller lots shall constitute the assessment thereon in the same manner as though it had been originally so assessed, and all of the provisions of this ordinance, including among others those relative to the lien of said assessments, the payment of such assessments, the execution and delivery of agreements for the payment of assessments in installments, delinquency of assessments, and sale of property assessed therefor, and redemption from such sales shall apply to each of said smaller lots and to the assessment segregated and apportioned to each of said smaller lots respectively in the same manner as though each of said smaller lots had been originally so assessed.

This section shall not be deemed to repeal or supersede, or abridge, the provisions of Section 38 hereof, but shall provide an additional or alternative method of relief in the cases to which it relates.

Section 2. This ordinance shall take effect immediately.

Hearing, 2 P. M.

The following hearing was *continued one week*;

Key Avenue.

Hearing appeal of property owners from assessment issued by the Board of Public Works for the improvement of Key avenue between Jennings street and a line 325 feet easterly therefrom, by grading to official line and grade, by the construction of concrete curbs and by the construction of artificial stone sidewalks 9 feet in width, by the construction of one concrete runway and by the construction of an asphaltic concrete pavement on the roadway thereof, fixed for the hour of 2 p. m. this day.

Completion of Civic Center.

The Clerk read:

Communication, from the Board of Public Works stating that it will cost \$18,000 to prepare plans and specifications for the ornamentation of the Fulton street facade of the Civic Center, and have asked the Board of Supervisors to appropriate this amount.

Mr. Leis, the owner of the gore at Market and Fulton streets, appeared before the Board and is very anxious for the Board to decide in reference to its plans, as he contemplates the construction of a large banking and bonding building on his property and wishes it to conform to the Civic Center plans and also to be the finest type of building it is possible to erect.

The matter was *continued for one week*.

Also, the resolution introduced by Supervisor McLeran to appropriate \$11,000 toward the preparation of plans and specifications was *continued*.

Mr. Wagon, owner of the Pantages Theater, urged speed on these plans, as he desires to build a granite wall on the theater building as soon as he can be informed as to how the Board desires this done.

Civic Center Plaza.

The Clerk read:

Communication, from the City Attorney reporting that in his opinion new bids will have to be called for on the balance of the work to be done on the Civic Center plaza.

The work was originally divided into two units and the work of the second unit cannot be considered as a part of the first as an ad-

dition or omission; therefore, bids must be called for on it as a separate piece of construction work.

In view of this opinion of the City Attorney, action on No. 4 on the calendar to appropriate the sum of \$90,000 for the completion of this plaza was *continued for eight weeks*.

In the meantime bids may be called for by the Board of Public Works.

Monterey Boulevard Bus Service.

Supervisor Shannon called attention to the routing of the bus service operating the three new buses recently presented to the City by the Residential Development Company.

The route as outlined in the ordinance adopted by the Board of Supervisors some time ago, he said, indicated Monterey boulevard.

It has since been discovered and property owners complain that the route laid down is not followed, but that other streets are used to the detriment of property and causing a menace to the lives of children.

Chief Engineer O'Shaughnessy stated that they would either have to remove the center strip in Monterey boulevard or route the buses some other way, and he would so recommend to the Public Utilities Committee at the meeting on Wednesday of this week.

UNFINISHED BUSINESS.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. A special fund is hereby created and designated as the Hetch Hetchy Power Operative Fund, and all moneys received from the operation of power plants on the Hetch Hetchy project shall be deposited to the credit of such fund immediately upon the receipt thereof.

Section 2. In accordance with the requirements of Section 16 of Article XII of the Charter, there is hereby appropriated from said fund the followings sums to be set aside, held and used exclusively for the following purposes in the order in which they are set forth, viz.:

First: Out of the first moneys deposited and to be deposited in said fund there is hereby appropriated the sum of \$166,666, for the payment during the fiscal year ending June 30, 1926, of the operation expenses of the power houses and transmission lines on the Hetch Hetchy project, including administrative and miscellaneous expense incidental to the operation of said power houses and transmission lines, workmen's compensation, insurance and pension contributions required under Ordinance No. 5561 (New Series) and ordinances amendatory thereof, and also for the repairs and reconstruction of any portion of the works on said project necessary or incidental to the operation and maintenance of said power houses and transmission lines.

Section 3. For each fiscal year commencing with July 1, 1926, and July 1 of each year thereafter, there is hereby similarly appropriated from each Operative Fund: First, the sum of \$200,000 for the purposes specified in the Second Subdivision of Section 2 hereof; second, the sum of \$100,000 for the purposes specified in the Second Subdivision, Section 2 hereof; and, third, after deducting said sums, sufficient for the rest and remainder of said moneys accruing to said fund during each of said fiscal years to pay the annual interest on and to provide for the redemption of the said \$8,000,000 of bonds of the 1910 issue hereby allocated to the construction of the portions of the Hetch Hetchy Project which is used for the generation and transmission of hydro-electric power; provided, further, that if and whenever the moneys deposited in said fund shall become more than sufficient to meet the operation, maintenance, depreciation, interest and redemption charges above specified in either the fiscal year 1925-1926, or in any subsequent fiscal year, then in such event the Board of Supervisors may make further appropriation from said fund for the additional purposes specified in Section 16 in Article XII of the Charter.

Section 4. All expenditures for operation, maintenance and depreciation charges as above defined shall be paid out of the respective appropriations therefor by the Treasurer, upon demands duly approved by the Board of Public Works and the Auditor.

Action Deferred.

The following matter was *continued one week*:

Whereas, a report has been filed by the architects for the Civic Center, comprising John Galen Howard, Frederick H. Meyer and John Reid, Jr., which report is as follows:

To the Building Committee, Board of Supervisors, City and County of San Francisco, California.

Gentlemen:

To supplement previous reports that have been submitted to you during the year, especially that of last May, the following recommendations are presented regarding the future development and safeguarding of the Civic Center area:

First: It is recommended that Leavenworth street be carried through to Market street and that the necessary lands be purchased therefor in order to complete the street system of the Civic Center.

Second: That the architectural character of the structure to be built by the City on its twenty-foot strip of ground on the south side of Fulton street from Market to Hyde be definitely fixed and that the City adopt a policy of purchasing the gore corner of Market and Fulton streets to assure the archi-

tectural character of the entrance to the Civic Center.

Further, that the preparation of the detailed design be authorized in order that the adjoining property owners may be advised as to the architectural conditions to be met. This is particularly necessary in view of the proposal of the owner of the Pantages Theater property to finish his Hyde street frontage in accordance with the architectural treatment of the Fulton street building above referred to.

Third: That all of the remaining Civic Center sites be retained for municipal purposes exclusively.

Fourth: That provision be made for the completion of the paving of the Civic Center Plaza.

Fifth: That the architectural character of the proposed War Memorial, in view of its relation to the Civic Center, be subject to the approval of the City and County of San Francisco, through its authorized advisers.

Sixth: That in order to preserve a continuity of the original Civic Center scheme that this and all questions pertaining to the design, development and embellishment of the Civic Center be referred to an advisory committee consisting of those who have already taken part in its design and execution. This committee would consist of the three consulting architects of the scheme, the architects of the City Hall, the architects of the State Building and the architect of the Library Building.

From practical experience in the working out of the several elements connected with the Civic Center it has been found that its future dignity and uniformity of design can only be protected by a most careful supervision.

Very truly yours,

JOHN GALEN HOWARD,
FREDERICK H. MEYER,
JOHN REID, JR.,

Architects of the Civic Center.

By JOHN REID, JR.,

Therefore, be it Resolved, That the said report as herein set forth, be and the same is hereby approved and adopted.

Action Deferred.

The following matters were on motion of Supervisor McSheehy *laid over four weeks*.

Resolution No. ——— (New Series), as follows:

Whereas, a report has been filed by the architects for the Civic Center, comprising John Galen Howard, Frederick H. Meyer and John Reid, Jr., which report is as follows:

To the Building Committee, Board of Supervisors, City and County of San Francisco, California, Gentlemen:

To supplement previous reports that have been submitted to you during the year, especially that of last May, the following recommendations are presented regarding the future development and safeguarding of the Civic Center area:

First: It is recommended that Leavenworth street be carried through to Market street and that the necessary lands be purchased therefor in order to complete the street system of the Civic Center.

Second: That the architectural character of the structure to be built by the City on its twenty-foot strip of ground on the south side of Fulton street from Market to Hyde be definitely fixed and that the City adopt a policy of purchasing the gore corner of Market and

Fulton streets to assure the architectural character of the entrance to the Civic Center.

Further, that the preparation of the detailed design be authorized in order that the adjoining property owners may be advised as to the architectural conditions to be met. This is particularly necessary in view of the proposal of the owner of the Pantages Theater property to finish his Hyde street frontage in accordance with the architectural treatment of the Fulton street building above referred to.

Third: That all of the remaining Civic Center sites be retained for municipal purposes exclusively.

Fourth: That provision be made for the completion of the paving of the Civic Center Plaza.

Fifth: That the architectural character of the proposed War Memorial, in view of its relation to the Civic Center, be subject to the approval of the City and County of San Francisco, through its authorized advisers.

Sixth: That in order to preserve a continuity of the original Civic Center scheme that this and all questions pertaining to the design, development and embellishment of the Civic Center be referred to an advisory committee consisting of those who have already taken part in its design and execution. This committee would consist of the three consulting architects of the scheme, the architects of the City Hall, the architects of the State Building and the architect of the Library Building.

From practical experience in the working out of the several elements connected with the Civic Center it has been found that its future dignity and uniformity of design can only be protected by a most careful supervision.

Very truly yours,

JOHN GALEN HOWARD,
FREDERICK H. MEYER,
JOHN REID, JR.,

City Efficiency League on City's Property Rights to Fulton Street Property in Civic Center.

The following was read by the Clerk:

December 28, 1925.

Honorable Board of Supervisors, San Francisco, California.

Your attention is respectfully called to conflicting opinion regarding the property rights on the south side of Fulton street between Market and Hyde streets. The property owners contend, the street and sidewalk having been open to vehicle and pedestrian travel for over five years, dedicates Fulton street and its sidewalk to public use and in consequence they contend their property now enjoys a Fulton street frontage and cannot be interfered with by a Civic Center structure.

On March 5, 1925, the City deeded to William B. Wagon property on the southerly line of Fulton street, east of Hyde street, agreement and description of same attached hereto. It would seem that the conveyance of this property entitles Mr. Wagon to the Fulton street frontage and consequently the City loses its rights to erect any structure in front of the Wagon property.

This matter is of vital importance to the City in carrying out the Civic Center plans, likewise to the owners of the property involved, therefore it is desirable for all concerned that the matter be cleared up at once. City Efficiency League recommends a friendly suit be immediately entered into in order that the matter can be disposed of and the interested parties know where they stand.

Respectfully submitted,

CITY EFFICIENCY LEAGUE,

By ADOLPH UHL.

Adolph Uhl was heard in explanation of the foregoing and the matter was referred to the new Board.
